Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-4, drawn to a nucleic acid encoding SEQ ID NO: 2, classified in class 536, subclass 23.5.

II. Claims 1-4, drawn to a nucleic acid encoding SEQ ID NO: 4, classified in class 536, subclass 23.5.

The inventions are distinct, each from the other because of the following reasons.

The products of inventions I-II, are distinct each from the other, because they are drawn to products having materially different structures and functions.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

A telephone call was made to Attorney Lance Ishimoto on February 15 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
